GENERAL INVESTOR PRESENTATION

MARCH 2024

IMPORTANT INFORMATION – DISCLAIMER

Cautionary note regarding forward looking statements

Statements included in this presentation that are not historical facts (including any statements concerning investment objectives, other plans and objectives of management for future operations or economic performance, or assumptions or forecasts related thereto) are forward-looking statements. These statements are only predictions and are not guarantees. Actual events or the results of our operations could differ materially from those expressed or implied in the forward-looking statements. Forward-looking statements are typically identified by the use of terms such as "may", "will", "should", "expect", "could", "intend", "plan", "anticipate", "estimate", "believe", "continue", "predict", "potential" or the negative of such terms and other comparable terminology.

The forward-looking statements are based upon our current expectations, plans, estimates, assumptions and beliefs that involve numerous risks and uncertainties. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, our actual results and performance could differ materially from those set forth in the forward-looking statements.

Key Messages

DELIVERING ON OUTLOOK

- EBITA of € 237.0 million
- Smart Manufacturing systems performed exceptionally strong in Q4 2023
- Continued destocking and other headwinds within Smart Vision and Smart Connectivity systems
- Substantial increase in Added Value Reflection of TKH's pricing power and strategic position
- ROS Q4 14.3%
- Good progress made in realization of ESG targets including improved ratings
- 70% of turnover linked to SDGs

€ 200M STRATEGIC INVESTMENT PROGRAM NEARING COMPLETION

- Production of type-test inter-array cables started in new plant in Eemshaven, to be operational during course of Q2 2024
- Expansion of medium and high voltage cable capacity in Lochem operational in phases from Q3 2023
- New fibre optic and specialty cable plants in Poland operational, Tire Building systems expansion in Poland fully operational
- 200 additional personnel for roll-out of strategic investment program

PROGRESSING ON OUR STRATEGIC POSITIONING

- Investments into AI, with set-up of hub in Amsterdam, and into digital transformation
- Machine Vision one-stop-shop and solutions
- Continuing high order intake tire building UNIXX system high interest confirmed
- High voltage supplier of TenneT Framework agreement inter-array Vattenfall – Additional inter-array orders in the pipeline
- Two major divestments, total one-off net profit of € 54.8 million – Acceleration of divestments announced towards high end bandwidth
- Acquisition of machine vision software company Euresys

Returned € 117.6m cash to shareholders: € 67.6m in dividends and € 50.0m in share buybacks

HIGHLIGHTS

SMART VISION

SMART MANUFACTURING

SMART CONNECTIVITY

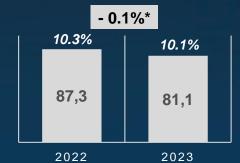

TOTAL

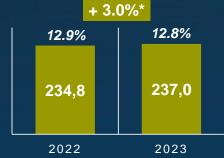

- Turnover Security Vision achieved growth during the year
- Machine Vision experienced large impact from destocking and weaker market demand
- Cost levels and capacity kept at higher turnover levels

Exceptionally strong Q4 – easing of supply chain constraints led to completion and delivery of large inventory of incomplete machines

- Orderbook remains strong
- Order for UNIXX system booked in Q1 2024
- After strong H1, onshore cable impacted by Dutch utility companies' destocking
- The offshore cable capacity underutilized in H2 due to order postponement
- Digitalization impacted by doubling of the EU anti-dumping duties in August
- Transition of fibre cable production from China to new plant in Poland temporarily impacted output and cost levels

 Added value expansion due to price increase to cover cost inflation, change in product mix and the impact of divestments.

- ROS impacted by supply chain issues in H1 Start-up expenses & new hires strategic investment program
- Underutilization of capacity due to destocking in Smart Vision and Smart Connectivity

HIGHLIGHTS

SMART TECHNOLOGIES <

Benefitting from

High barriers to entry: combination of advanced technology levels, patented technologies, expertise and capital required to enter market

Accelerate 2025: Roadmap to turnover and ROS target

Unlocking the full potential of our leading technologies

Areas	Contribution to turnover target > € 2 billion	Contribution to ROS improvement target > 17% 1)	Commentary to 2025 targets
ORGANIC GROWTH / COST EFFICIENCY	> € 300 million	> 2.5%	Strategic investment program to expand capacity amongst others into higher margin activities, scale effect on opex and cost of goods sold
INNOVATIONS	> € 200 million	> 2.0%	Organic growth, acceleration of our innovations in terms of turnover, benefit from learning curve and economies of scale
ACQUISITIONS	€ 100 – 150 million		Acquisitions that strengthen our portfolio of proprietary technologies in the area of software, and/or strengthen our sales network
PORTFOLIO MANAGEMENT	- € 150 – 200 million	> 0.5%	Divestments that do not contribute towards achieving our long-term strategy & targets

¹⁾ ROS improvement is based on reference ROS of 12%

Accelerate 2025: Assumptions for ROS Targets

SMART VISION

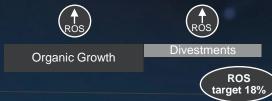

- Megatrend: Automation
- One-stop-shop positioning & USP's
- High single digit organic growth
- Investments into software & AI
- High added value of 60%
- ROS growth: scale & efficiency
- Strategically fitting acquisitions

	2023	2022	2021
Turnover	+ 0.2%	+ 16.3%	+ 9.4%
EBITA	- 10.1%	+ 29.5%	+ 18.9%
ROS	17.2%	19.1%	17.2%

- Destocking end customers
- Challenging market circumstances
- Underutilization High costs

SMART MANUFACTURING

- Megatrend: Automation
- Portfolio expansion
- High single digit organic growth
- ROS growth through:
 - Business normalization
 - Divestments
 - Scale & efficiency

	2023	2022	2021
Turnover	+ 16.8%	+ 17.2%	+ 19.9%
EBITA	+ 31.2%	+ 16.3%	+ 43.5%
ROS	15.8%	14.1%	14.2%

Structural inflationary pressure & high interest rates

- Supply chain constraints
- High levels of inefficiencies

SMART CONNECTIVITY

ROS target 15%

- Megatrend: Digitalization & Electrification
- High single digit organic growth
- ROS growth through:
 - Strategic investment program
 - Operational leverage
 - No anti-dumping duties

	2023	2022	2021
Turnover	- 5.7%	+ 22.6%	+ 22.4%
EBITA	- 7.1%	+ 19.3%	+ 61.9%
ROS	10.1%	10.3%	10.6%

- Destocking Dutch utility companies
- Project delays offshore wind
- Anti-dumping duties

2025 Targets:

Turnover: ≥ € 2bn ROS: 17%

If headwinds continue:

17% ROS target may take longer to realize

DIVIDEND

Aim for a dividend pay-out of between 40% and 70%

€ 200m Strategic Investments nearing completion

Production capacity expansions on schedule to meet increased demand in automation, digitalization, and electrification

Offshore: New Subsea Cable factory Eemshaven (the Netherlands) Start serial production in Q2 2024

Single source framework contract for 3y+5y established with Vattenfall for Europe and large contract awarded by Ørsted for supply of 200 km inter-array and other cables; promising sales funnel

ELECTRIFICATION

Onshore: Expansion factory for **Medium & High** Voltage cables

Lochem (the Netherlands)

Operational in phases in Q3 2023

Selected as one of the suppliers by system operator TenneT for the supply of highvoltage cables in the coming years

Securing additional capacity to benefit from megatrends resulting in additional € 250 -€ 300 million turnover in coming years

New Fibre Optic Cable factory

Operational

New plant in Poland will eliminate EU imposed anti-dumping duties (€ 7.5 million in 2023)

Specialized Connectivity Systems

Operational

Expansion in Poland will increase capacity and reduce lead time for specialized connectivity systems

Expansion Tire Building Systems factory Leszno (Poland)

Operational in Q2 2023 Additional capacity for high order intake and order book in Tire Building

Strong progress in our strategic positioning

TKH VISION

TKH VISION

Further positioned the TKH Vision group as a one-stop-shop technology partner for customers:

- Invested in expanding the sales organization
- Preparing for the opening of additional Solution Centers for TKH Vision, besides the one in Konstanz

DIGITAL TRANSFORMATION

- Upscaling and upskilling of shared technology service center in Poland (100 FTEs) and strengthening management
- Set-up of Artificial Intelligence hub in Amsterdam

Acquisition Euresys

Acquisition JCAII (Jan 2024)

Guidance software and equipment for airports Complements TKH's CEDD technology Annual turnover of € 10m

Divestment minority share CCG

Closing of divestment minority share One-off net profit of € 36 million

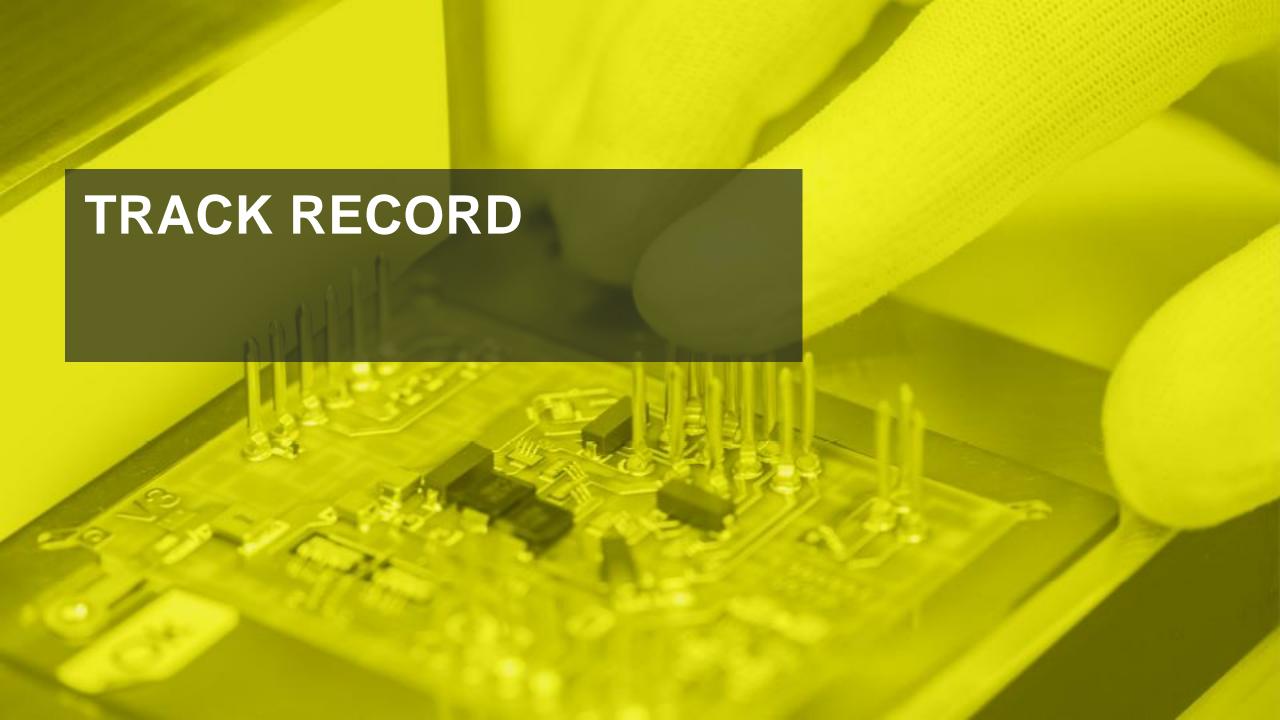

Divestment TKH France

Connectivity distribution activities in France One-off net profit € 20 million Minority stake of 40% in carve-out

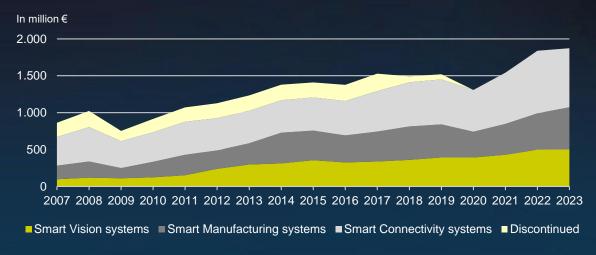

Acceleration of divestments announced to further focus on core technologies

Further strategic focus on our differentiating and innovative power in Smart Technologies

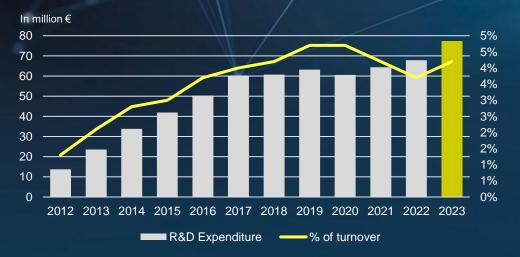

TKH's evolution into today's technology leader

REPORTING SEGMENTS

Smart Vision Systems – FY23 Results

In million € unless stated otherwise	2023	2022	Δ in %	Organic Δ in %
Turnover	500.5	499.7	+ 0.2%	- 1.8%
Added value	58.9%	58.5%		
EBITA *	85.9	95.5	- 10.1%	- 12.1%
ROS	17.2%	19.1%		
Orderbook	124.0	159.2	- 22.1%	
ROCE	15.6%	18.8%		

HIGHLIGHTS 2023

- Cost levels and capacity at Machine Vision kept at higher turnover levels in anticipation of return of growth
- EBITA impacted by high operating expenses combined with lower turnover growth

Security Vision

- Growth in 2023
 - Larger projects for building applications and traffic monitoring systems
 - Easing of supply-chain shortages
- Improved performance at parking guidance systems & partial market recovery

Machine Vision

- Good performance at the start of year, supported by battery & solar markets
- H2 impacted by destocking & weaker demand
- Turnover declined throughout the year, for both 2D and 3D
- Further strengthened our market positioning and cooperation within the group
 - Take advantage of our one-stop-shop solutions
 - TKH Vision Group's position as the technology partner for our customers
- Specific developments initiated for plug and play system integration
 - Facilitated by software including AI propositions

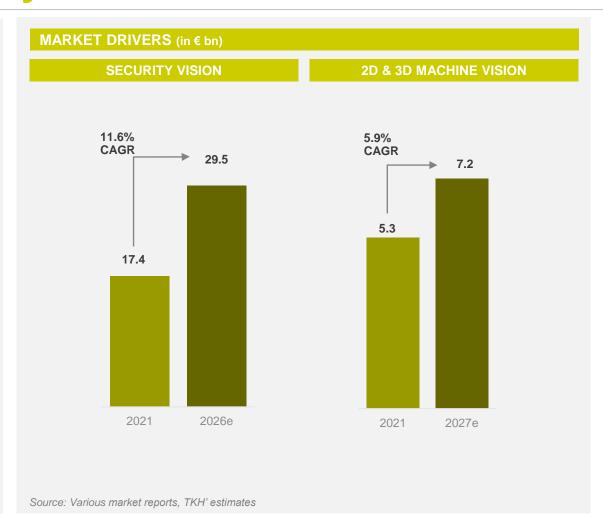

^{*} Adjusted for acquisitions and currency effects, turnover decreased 1.8% organically

HIGHLIGHTS 2023

Tire Building systems

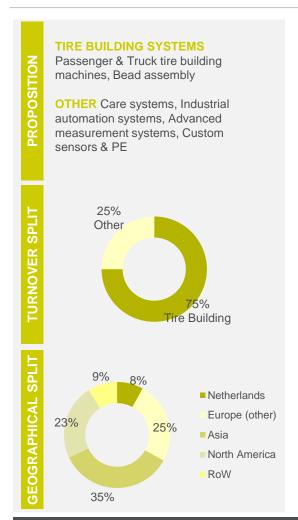

- Easing of supply-chain constraints in H2
- Excellent performance in Q4 2023
 - · Large inventory of incomplete completed and delivered
- Order intake for both passenger and truck tire continues to be high
- · Drivers:
 - · Investments into production of more sustainable tires
 - Rise of electric vehicles
 - · Need for more automation
 - · High level of activities related to reshoring
- Expansion in Poland started successfully and ramped up in H2
 - Further expansion due in H1 2024
- Order booked for UNIXX system
 - Major milestone for further growth in this segment

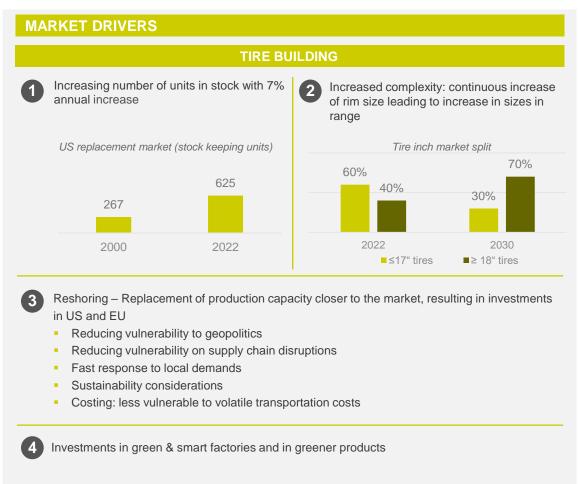

Other

- Industrial automation and other industrial activities developed well
- New orders received for Indivion

- Adjusted for acquisitions and currency effects, turnover decreased -1.5% organically
- ** EBITA before one-off income and expenses
- *** In Aug 2019, CCG was divested (2018 EBITA € 14.3m)
- **** In Jan 2020, ZTC was divested (2019 EBITA € 5.0m)

HIGHLIGHTS 2023

Electrification Onshore

- Onshore energy cables impacted by destocking Dutch utility companies
 - Delays encountered with roll-out of their network projects
- · Additional capacity in medium and high voltage onshore energy cable realized
 - Appointed as one of the preferred high voltage supplier for TenneT

Electrification Offshore

- Subsea cable capacity underutilized in H2; postponement of an order
- New plant in Eemshaven on schedule, operational during Q2 2024
 - Single source framework agreement with Vattenfall underpins strength of unique design
 - Prospects for new orders in the coming quarters
 - Capacity not expected to be fully utilized before 2025

Digitalization

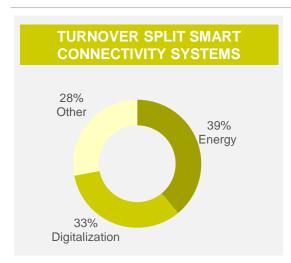

- In H2 doubling of the EU anti-dumping duties
- Implementation of anti-dumping duties on optical fibre cables from China to UK
 - Closure of the cable production in China, transferred capacity to new plant in Poland
 - Transition temporarily impacted output and cost levels

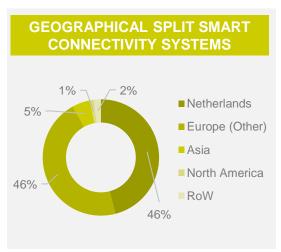

Other

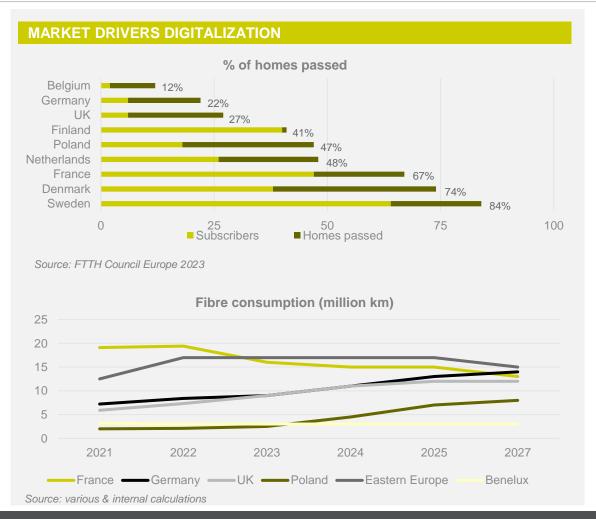

• Strong demand for specialized and customized connectivity systems for the machine-building, robotics, and medical industries

2 Change in net debt (in € million)

Cash dividend of € 1.65 paid per (depositary receipt of) ordinary share in 2023

Net debt/EBITDA of 1.8 (December 31, 2022: 1.1 and June 30, 2023: 1.7)

Free Cash Flow

	(in million € unless stated otherwise)	H1 2023	H2 2023	2023	2022	2021	2020
	Operating result	93.3	81.2	174.5	190.2	136.9	70.9
1	Depreciation, amortization and impairment	51.7	57.7	109.4	100.6	98.0	103.1
	EBITDA adjusted	145.0	138.9	283.9	290.8	234.9	174.0
	Change in working capital	- 101.2	29.9	- 71.3	- 116.3	-3.5	42.5
	Taxes paid	- 19.5	- 24.6	- 44.1	- 40.4	- 33.1	- 19.9
	Other		4.9	4.9	-9.3	8.2	- 0.1
	Cash flow from operations before interest	24.3	149.1	173.4	124.8	206.5	196.5
	Payment of lease liabilities	- 7.7	- 8.8	- 16.5	- 14.7	- 15.6	- 16.0
2	Capital expenditure PP&E	- 71.0	- 106.1	- 177.1	- 91.8	- 31.0	- 29.4
3	Capital expenditure intangibles	- 25.5	- 27.6	- 53.1	- 45.9	- 40.5	- 39.2
4	Divestments of property held for sale				14.0		
	Free Cash Flow ('FCF')	- 79.9	6.6	- 73.3	- 13.6	119.4	111.9
	EBITDA (adjusted) to FCF conversion	- 55.1%	4.8%	- 25.8%	- 4.7%	50.8%	64.3%

1 FCF conversion can be affected by developments in working capital. Working capital ratio for the periodend included in the overview are:

2019: 13.0%
2020: 12.1%
2021: 9.9%
2022: 12.9%
2023: 16.7%

FCF-conversion is traditionally lower in the first half year and stronger in second half due to working capital development

- In 2023, Strategic Investment Program impacted FCF by € 134 million (2022: € 41 million)
- Payments for acquisitions have not been included in FCF
- The net cash flow from the divestment of TKH France and CCG of € 129.5 million is not included in the FCF overview Including the divestment, the FCF conversion would be 19.8%

Outlook

TKH has made strong progress in its strategic positioning in 2023. With over 15% of turnover from innovations and the completion of the € 200 million strategic investment program, TKH is well positioned for further growth.

For Q1 2024, we anticipate Smart Manufacturing systems to grow compared to Q1 2023. Smart Vision and Smart Connectivity systems will face continued weak market demand. Overall, turnover and EBITA are expected to decrease in Q1 2024 compared to Q1 2023.

For the full year, we expect Smart Manufacturing systems to return to more normalized growth when compared to last year. In Smart Vision systems, we expect growth to return in the second half of 2024, on the back of market recovery. Within Smart Connectivity systems, we anticipate the destocking of onshore energy cables in the Netherlands to continue throughout the year. Barring unforeseen circumstances, we anticipate organic growth in turnover and EBITA in 2024.

TKH will provide a more specific outlook for the full year of 2024 at the presentation of its interim results in August 2024.
